

Delivering
Excellence
Worldwide

meachersglobal.com

Get the full potential
from your business
by transporting and
storing your products
using our unique
blend of **knowledge,**
experience and
exceptional facilities.

We ensure your goods are handled with respect, moved with efficiency and stored securely. Going that extra mile to help your business achieve its aims.

From dependable UK deliveries and warehousing to complex global logistics and freight requirements - Meachers knows the way.

About Meachers

For nearly 60 years, we have built an enviable reputation by providing customers with complete supply chain solutions to their Freight Forwarding, Warehousing, Distribution, Logistics requirements.

We combine industry know-how, with best practices, advanced technology and experienced staff to drive efficiencies and stay one step ahead of industry demands.

In March 2021, we completed the acquisition of AFS Haulage, which enables us to provide customers with an increased capacity and a range of specialist equipment such as flatbeds, HIAB and tail-lift. The acquisition also means that the business is now a member of Palletways - Europe's largest provider of express palletised distribution services.

From freight forwarding and warehousing, through to supply chain management, transport and distribution, Meachers Knows the Way.

Our people are passionate about logistics and supply chain management.

Their unparalleled expertise is what helps to add value, drives positive change and generates greater efficiencies for our customers.

Our team, based in Southampton, Eastleigh and Derby, is committed to delivering excellence with supply chain solutions to help your business achieve its goals.

Our business model or 'DNA' is centred on four key principles:

Expertise

Flexible solutions

Delivering excellence

Strong relationships

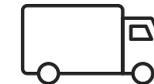

Expertise

Our industry experts analyse your problems and gain insight into the challenges that you face.

Flexible solutions

We develop customer-centric flexible solutions to even the most complex logistics problems.

Delivering excellence

Our team consistently and confidently delivers and implements high-quality levels of service, backed up by our reputation for reliability and excellence.

Strong relationships

We believe strongly in partnerships and look to build trust, rapport and empathy with our customers and develop lasting relationships.

The Complete Solution

We offer a full range of logistics solutions, including:

Supply Chain Management

Transport and Distribution

Warehousing

International Freight Management

Sustainable Distribution Centre

Pallet Network Membership

Specialist Solutions

Supply Chain Management

We help customers to drive efficiencies, streamline processes and manage every aspect of the import and export supply chain. Our specialist teams manage import and export logistical movements on a daily basis and provide advice and guidance on complex issues such as customs compliance, shipping control, warehousing and distribution.

Customers are safe in the knowledge that they are in expert hands that can respond rapidly to changes in supply and demand, increase customer satisfaction, improve margins and ensure best practice compliance.

Import & Export Supply Chain

- Coordination and consolidation of cargo
- Supplier control
- Import and export customs clearance
- Shipping
- Warehousing
- Pick 'n' pack
- Delivery and distribution
- Management reporting

Transport and Distribution

We know transport and distribution is more than simply moving a consignment from A to B. That's why we take a personalised approach to meeting our customers' requirements.

We own and operate a substantial modern fleet of vehicles, which provides national daily distribution and next day delivery for any size of consignment. This is backed up by a reputation for quality, service and experience.

Owned Fleet

- Comprehensive and varied fleet of modern vehicles

UK Full Load Distribution

- Full UK load distribution
- Next-day delivery service for any size consignment

UK Pallet Deliveries

Pick 'n' Pack

- Comprehensive pick 'n' pack and labelling service

Container Devanning and Loading

- Depot strategically located in Southampton and Eastleigh
- 24/7 container de-vanning and loading services

Freight Forwarding Services

Our specialist teams provide an extensive portfolio of services based around the core forwarding areas of air, sea and road. From direct airline and consolidation services through to deep-sea container and international road freight, we have earned a reputation as one of the UK's leading independent freight forwarding companies.

Since originating in 1958, we have put customer care and support at the heart of all our forwarding services. This means that customers can be confident in dealing with an experienced team of logistics experts that provide advice and support to meet even the most complex demands of the global market place.

Palletways

What is Palletways, and how is it connected to Meachers?

Founded in 1994, Palletways is Europe's largest and fastest-growing provider of express distribution for small consignments of palletised goods, currently handling in excess of 21,000 pallets per day.

The Palletways distribution network comprises over 280 local depots and hub operations, operated by independent and established logistics companies nationwide. Palletised freight is collected by Meachers and delivered by a depot close to your customer, ensuring fast reliable service.

Meachers Global Logistics is the local depot for most of the SO postcode area.

Our partnership with Palletways means that our customers benefit from the innovations and economies of scale offered by Europe's largest and most geographically comprehensive pallet network, whilst continuing to receive personal account management from our local Customer Services team here in Southampton.

Most of our customers' single pallet or small consignments will typically be transported via the Palletways network.

Specialist Solutions

To provide our customers with the high-quality, comprehensive solutions their needs demand, we offer several specialist solutions designed to meet niche requirements.

The Isle of Wight and the Channel Islands

We are one of only a handful of hauliers offering comprehensive full load and pallet distribution services to both the Isle of Wight and the Channel Islands.

Specialist vehicles

As part of our commitment to providing a comprehensive solution for all of your haulage needs, we offer the following, specialist vehicles for hire:

HIAB

For moving goods, cable drums, steel frames or wide-load items that forklifts and tail-lifts are unable to lift.

Tail-lift

For those occasions when a forklift is unavailable.

Sustainable Distribution Centre

The Sustainable Distribution Centre (SDC) is an innovative logistics solution that consolidates deliveries across Southampton, improving supply chain efficiency and helping to reduce congestion and pollution in the city.

The scheme, which we have operated since 2012 in conjunction with Southampton City Council, allows companies and public sector organisations in the area to consolidate their deliveries into the Sustainable Distribution Centre (SDC) warehouse, owned and operated by Meachers Global Logistics, and lower the number of deliveries made back into their business.

“ Our expert team, exceptional facilities and robust processes set us apart from the competition. We understand that your supply chain is a vital ingredient in your business’s prosperity, and we’re here to ensure that you get the support and expertise you need to be successful. ”

Bob Terris, Chairman
